

Benchmark offers a variety of umbrella base designs to work within your design environment. Bases comes with or without wheels.

UMBRELLA BASES

- All umbrella bases are freestanding. Based on your areas wind speeds it may be highly recommended to mount.
- The bases without wheels are made from steel. The bases with wheels are made from aluminum.
- Bases with wheels require sand to be added, once received, for proper base installation (sand does not come with product).
- Thru holes are provided on the sleeve for securing the umbrella to the stand with a restraint pin or bolt.
- Bases with wheels: sleeve is welded to a round plate that is secured underneath the base to prevent the sleeve from pulling out of the shell.
- Thick durable feet made of polypropylene provide protection against surface scratches and keeps the base plate off the ground.
- Standard square and round bases: two piece construction assembles easily with one carriage bolt

FINISHES

- Standard base:
 - powder coated steel - black, white, or almond.
- Base with wheels:
 - Powder coated aluminum - black, white, or almond.
 - Brushed aluminum.

MAINTENANCE

- Metal surfaces can be cleaned as needed using a soft cloth with warm water and a mild detergent. Avoid abrasive cleaners.

NOMINAL DIMENSIONS

	STYLE	MODEL	DEPTH	WIDTH	HEIGHT	WEIGHT
Standard Bases		16996	21.75"	21.75"	.5"	71 LBS
